

TCMN Web Cleaners

The TCMN model line is a range of compact web cleaners available in a variety of cleaning widths from 11" up to 59" and in single or double-sided cleaning formats. The integral elastomer cleaning roller(s) removes particulate contamination down to sub-micron level from the substrate and transfers it to a pre-sheeted adhesive roll(s) mounted on an air or mechanical support shaft. Optional telescopic slides provide side access to any or all rollers.

- Full Contact/Transfer cleaning system
- Single or Double-Sided cleaning
- Removes contamination down to sub-micron levels
- Optional acrylic/aluminum guard (anti-static)
- Optional telescopic slides for side access to any/all rollers
- Optional active static elimination system
- Available in multiple cleaning widths & any orientation for line speeds up to 1,200ft/min
